Project Title: Sada Travel Blog

Contents:

- ✓ I have a responsive multi-page website
- ✓ I have used HTML5 structure with semantic elements
- ✓ There is an External CSS with Flexbox and media queries
- ✓ JavaScript has been used for form validation and loading XML data
- ✓ Use of Accessible design with alt text and semantic HTML
- ✓ I have Validated HTML and CSS using W3C Validator

Html Pages:

We have the following pages:

- ✓ index.html: Homepage with destinations and table
- ✓ about.html: Blogger introduction
- ✓ contact.html: Contact form with validation

XML:

- ✓ places.xml contains structured data of travel locations loaded dynamically into homepage
